**KMYF**

- ※This product does not protect the eyes from physical shock or harmful substances.
- ※This product is not medical equipment.

KMS3-1010, KMS2-1010, KMYF are a lightweight, disposable medical eye shield for micro-polarizer (circular polarization) 3D monitor. It protects eyes from splashes such as blood while maintaining visibility of clear images and improves the efficiency of 3D surgery.

## Main features

- Can be used for circular polarization type 3D LCD monitor
- Protect your eyes from splashes such as blood
- Avoid 3D image breakdown by overlapping 3D glasses and general purpose shield
- First commercialization of 3D→2D conversion shield capable of displaying 3D images in 2D

# Main Specifications

	3D EYE SHIELD KMS3-1010	2D EYE SHIELD KMS2-1010	SHIELD FRAME KMYF
External dimensions (Width × Height)	Approx.235mm × 77mm	Approx.235mm × 77mm	Approx.160mm × 45mm
Mass	Approx.7g	Approx.7g	Approx.16g
Operating temperature	0 ~ 40°C		
Operating humidity	30 ~ 85%		
Operating pressure	700 ~ 1060hPa		
Storage and transport temperature	-20 ~ +60°C		
Storage and transport humidity	20 ~ 90%		
Storage and transportation pressure	700 ~ 1060hPa		
Accessories	Instruction manual		

## Safety Warning

In order to use the product safely, be sure to read "Operation Manual" carefully before using.
